Books

  While the publication date is rather old, the book is an excellent introduction to the law of armed conflict, and will be used as reading assignment for a number of sessions.

  The handbook covers various topics we deal with in this course.

Another fresh reference book with many relevant topics.

A thematic volume of a very authoritative and comprehensive encyclopedia on public international law.

Participants are advised to learn a few basic things about the law of treaties in order to participate in discussions in the class. This excellent introduction amply suffices for this purpose.

Participants are advised to learn a few things about public international law in order to participate in discussions in the class. This book is one of many quick reference books with compact explanations.

Web Sites

ICRC Database on International Humanitarian Law.
A section of the ICRC’s website and a great source of information including the treaties and their most update commentaries.

UN Documents.
A section of the United Nations’ website. If you know how to obtain the Security Council resolutions and the General Assembly resolutions, that is good enough for the purpose of the course.
